

AUDIO / VIDEO REQUIREMENTS

Computer, Projector and Screen:

Sully uses a 13" MacBook laptop that has a standard HDMI port for video output. Sully's entire presentation is presented from his computer using a 16:9 display ratio. Client must provide a wireless clicker to use with Sully's MacBook laptop. The larger the screen and the higher the quality of the projector, the better.

Microphone and Audio:

Sully requires a wireless lavalier microphone connected to a high-quality audio system. Speakers/audio should be very high-quality and sufficient for the entire audience to hear sound/video clips played directly from Sully's laptop. Please make sure the sound system is functioning and tested before his arrival.

No Podium:

Sully prefers no podium to be on stage. If one must be present, he prefers it to be pushed back so that he may walk in front of it unencumbered.

Beverage:

Please have a bottle of water available to Sully while on stage.

Confidence Monitor:

Sully prefers a confidence monitor.

Audio and Video System Testing:

Sully must have the ability to do an audio/visual test no fewer than 30 minutes before taking the stage.

Internet Access Not Required:

Sully presents using his own laptop with embedded videos. The entire presentation and all content are self-contained and do NOT require Internet access.
